

Inductive Proximity Sensors

Carlo Gavazzi is a market leader in inductive proximity sensor technology with one of the broadest range of products in the industry. With over 40 years of experience, Carlo Gavazzi knows what it takes to manufacture sensors that are designed to withstand the rigours of your toughest applications. With local sales and support centres located in 22 countries and independent distribution in over 100 countries, Carlo Gavazzi product and technical support is available around the world.

Our Inductive Proximity Sensor Range

ICB Series

[Select Product](#)

- Inductive Sensors with cylindrical metal housing
- Available in M4, M5, M6.5, M8, M12, M18, and M30 housing
- 3 Wire DC
- NPN, PNP, or IO-Link Output
- NO or NC
- 2 metre cable or quick disconnect plug
- IP67

ICS-E1 Series

[Select Product](#)

- E1 Certified Sensors in cylindrical stainless steel housing for use in mobile equipment and applications in harsh or tough environments
- Available in M12, M18, and M30 housing
- 3 Wire DC
- NPN or PNP Output
- NO or NC
- 2 metre cable or quick disconnect plug
- IP67/68/69K

ICF Series

[Select Product](#)

- ECOLAB® certified Inductive Sensors with cylindrical face)
- Available in M12, M18, and M30 housing
- 3 Wire DC
- IO-Link Output (can be configured as NPN or PNP using the SCTL55 Configurator)
- 2 metre cable or quick disconnect plug
- IP67/68/69K
