

METER · MIX · DISPENSE

Your Partner for Metering
and Mixing Technology

Our Passion: Metering and Mixing Technology individually configured

DOPAG Company Presentation

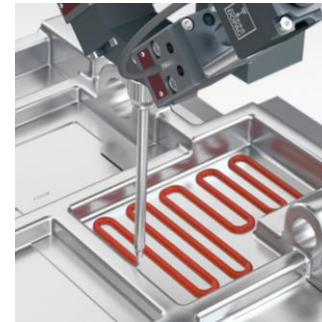

Who is DOPAG?

HILGER & KERN
GROUP:
FAMILY-OWNED
COMPANY SINCE
1927

5 PRODUCTION
LOCATIONS:
GERMANY,
SWITZERLAND,
INDIA,
FRANCE, UK

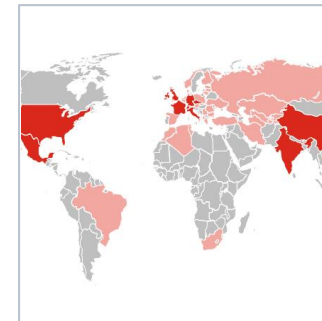

ALL APPLICATIONS
FROM A SINGLE
SOURCE:
FROM GREASING
TO GASKETING

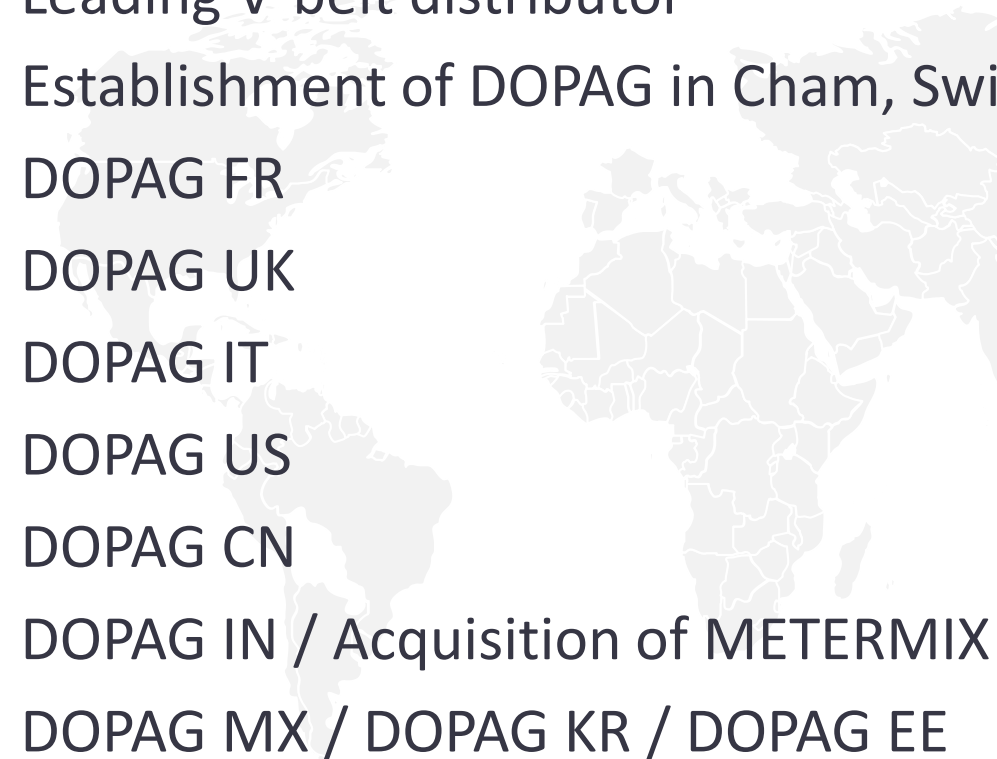

12 OWN
LOCATIONS
WORLDWIDE
+
MORE THAN 35
SALES PARTNERS

FOR INDIVIDUAL
REQUIREMENTS:
INDIVIDUAL
CONFIGURATION

350
EMPLOYEES
WORLDWIDE

A light gray world map is positioned in the background, centered behind the text. It shows the outlines of continents and countries.

1927	Establishment of Hilger u. Kern
1940-1960	Leading V-belt distributor
1976	Establishment of DOPAG in Cham, Switzerland
1989	DOPAG FR
2002	DOPAG UK
2004	DOPAG IT
2009	DOPAG US
2010	DOPAG CN
2014	DOPAG IN / Acquisition of METERMIX
2017	DOPAG MX / DOPAG KR / DOPAG EE

Your advantage: The strong group of companies

HILGER&KERNGROUP

The GROUP appears as “holding” in the background and it is also the signature of the administrative divisions in Mannheim: Management Board, Human Resources, Reception, Accounting, Controlling, IT, Marketing and Supply Chain Management (Purchasing and Storage).

DOPAG

Global brand for metering and mixing technology in the „high-end“ segment.

METER MIX

Global brand for metering and mixing technology for manual applications.

Hilger u. Kern Industrietechnik:

Brand for drive technology, industry electronics and vibration technology.

We are at home in these markets

AUTOMOTIVE + E-MOBILITY

WIND POWER +
RENEWABLE ENERGIES

FILTER INDUSTRY

ELECTRONICS

We are familiar with these applications

FIPFG - GASKETING

GREASING + OILING

BONDING + SEALING

POTTING

THERMALLY CONDUCTIVE MATERIALS

COMPOSITES

Your main advantage: The individual configuration

For solutions that meet your specific requirements

From our broad portfolio of high-quality components and systems, we configure the most suitable and economical solution for you.

FIPFG - Gasketing

For certified FIPFG quality

The dynamicLine guarantees reproducible production results and the achievement of all relevant standards, classes and certifications.

- [User Cases](#)

Greasing + Oiling

For precise and reliable production processes

Decades of experience in the design of dosing systems for grease and oil ensure consistently high product quality.

- [User Cases](#)

Bonding + Sealing

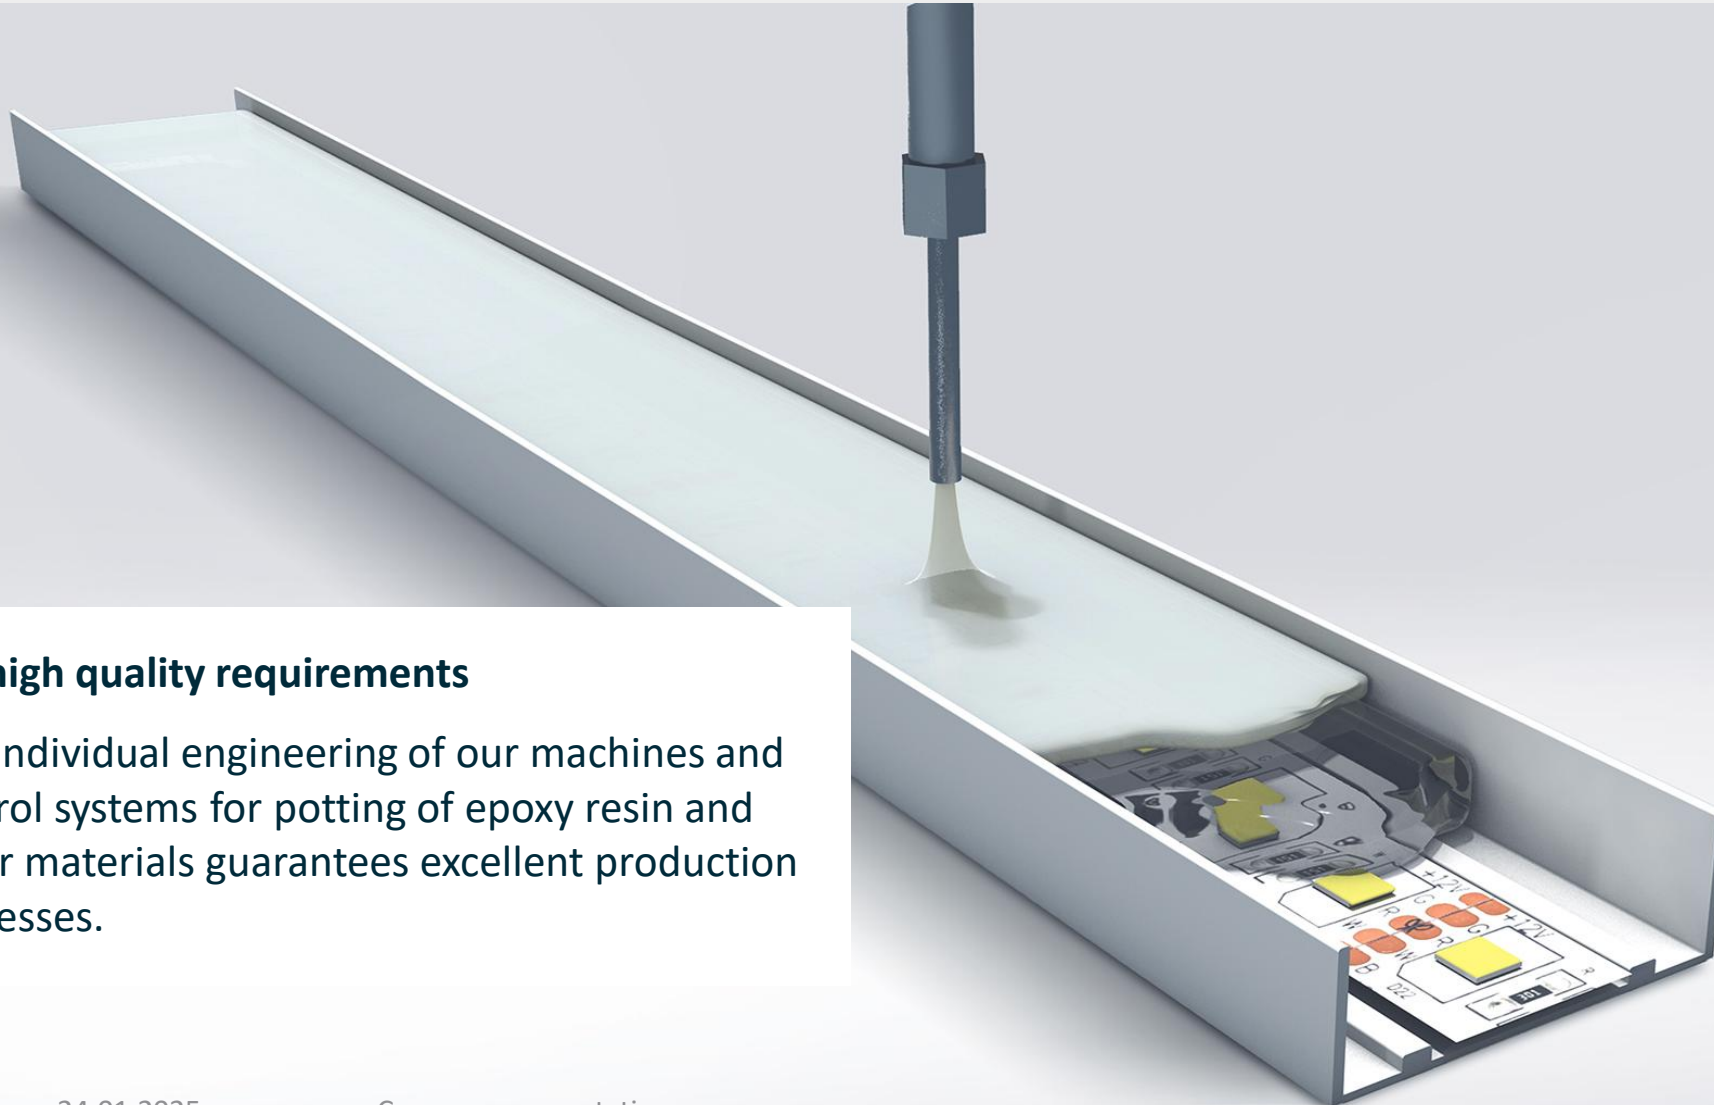

For competent application of adhesives and sealants

Our in-depth experience enable us to configure exactly the right system for you, including automation and all pre- and post-treatments.

- [User Cases](#)

Thermally Conductive Materials

For low-wear processing of highly abrasive materials

Hardened steel and surface coatings ensure a long lifetime and reduced maintenance.

Composites

Robust quality for extreme conditions

DOPAG is leading in metering technology for the manufacture of fibre composite components for the production of wind turbine rotor blades as well as aircraft interiors.

Learn more:

- [Homepage](#)
- [User Cases](#)

For a perfect interlocking of automation and dispensing technology

Component handling, pre-treatment and application without user intervention ensures you consistently high product quality and increases the cost-effectiveness of your production.

All-round carefree service

For a hassle-free start:

- Perfect installation of the entire system
- All-round start-up: We accompany you until your series production is running stably
- Customer-specific training

For long-term stable production

- Preventive inspections and maintenance contracts
- KPI analysis
- Complete overhaul

For short repair times:

- High accessibility
- Fast execution of repairs
- Short-term availability of original DOPAG parts
- Worldwide delivery of spare parts

For the same standards worldwide:

- Inspection, maintenance and repair in the worldwide DOPAG branches, at sales partners or at your site

Broad product portfolio

METERING COMPONENTS + PUMPS

- Drum pumps
- Gear pumps
- Progressive cavity pumps
- Material pressure regulator
- Dispensing valves
- Metering valves
- Components for monitoring and Control
- Accessories

METERING AND MIXING SYSTEMS FOR 1-COMPONENT MATERIALS

GEAR METERING SYSTEMS

- eldodis
- modis
- coredis

PISTON DOSING SYSTEM

- vectodis

PROGRESSIVE CAVITY PUMP

- rotordis

METERING AND MIXING SYSTEMS FOR 2-COMPONENT MATERIALS

GEAR METERING SYSTEMS

- compomix
- eldomix
- evomix DF
- gelcomix
- gluemix

PISTON DOSING SYSTEM

- vectomix + vectomix TC
- variomix
- economix
- silcomix
- coatingmix

PROGRESSIVE CAVITY PUMP

- rotormix

DYNAMIC MIXING SYSTEM

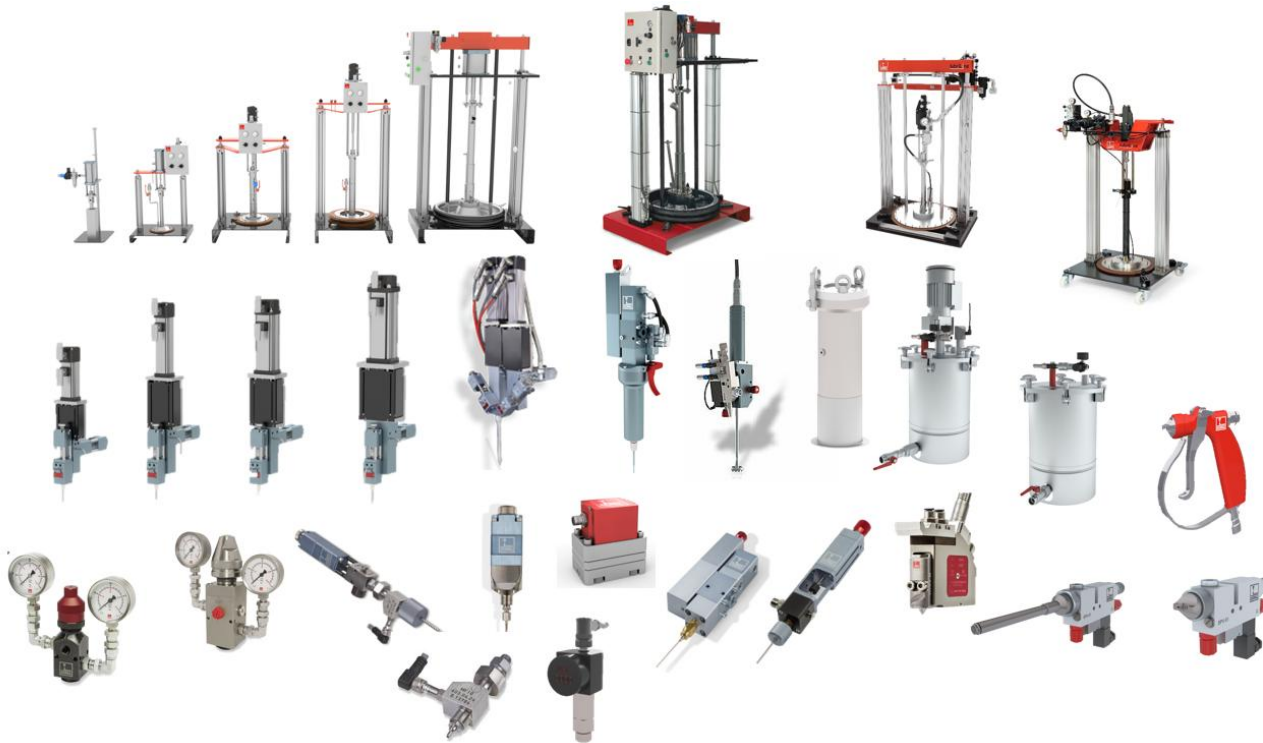

- dynamicLine

AUTOMATION

- Production cell
- Stand-alone Systems
- Individual systems

We are your supplier for components. Worldwide.

For all those who want to rely on precise components:

- Owners of metering and mixing systems
- System integrators
- Other suppliers of metering and mixing systems who want to rely on quality when equipping their systems

For large selection:

- Drum pumps
- Gear pumps
- Progressive cavity pumps
- Material pressure regulators
- Dispensing valves
- Metering valves
- Components for monitoring and control
- Accessories

Range of 2K Metering and Mixing

Mixing and dispensing by hand

Cartridges

Machines for manual dispensing
